## The Scholarship

The DREAM Institute has established a scholar award for students with physical and/or learning disabilities who are pursuing a higher education degree at a state college or university (see eligibility below). The program can provide up to full tuition and fees for full time students, a \$300.00 allowance for books per semester, a \$500.00 living stipend per semester with funding for tutoring/other special services (academic assistance) if necessary during their academic career. While the program is awarded for two or four year programs, eligibility is reviewed annually. (**Note:** the amounts for books and living stipends can be more at the discretion of the HEAP Scholarship Selection Committee)

In addition, the recipient will participate in an orientation workshop designed to equip the student with the basics on what they will need to know and do as they begin their academic career in higher education. Some of the orientation curriculum will include: note taking and study skills, goal attainment, institute expectations, career and personality assessments, disclosing his/her disability, and how to use techniques in regard to transition. The DREAM Institute will match an academic mentor(s) with the recipient during their academic career who will provide educational and emotional support to the student, during their higher education experience. After the recipient has declared his/her major, the recipient will be matched with a professional mentor who has experience in the industry that the recipient is studying. The professional mentor(s) will play a vital role in career placement for the graduating recipient along with emotional support after graduation.
